

Chase DuraSpan[™] Curtains

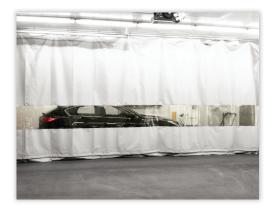

Insulated & Industrial

Chase DuraSpan[™] Industrial Curtains

Founded in 1932, Chase Doors has become the global leader and most recognized manufacturer of high-quality, made-to-order specialty door systems and flexible wall partitions. Chase Doors offers both an industrial and insulated curtains designed to economically divide space without building a permanent wall. No matter what model you choose, Chase Doors' manufacturing capabilities and exceptional customer service has empowered Chase Doors to earn a reputation for high quality products that are reliable, durable and competitively priced.

DuraSpan Curtains – An Economical Solution

DuraSpan curtains are an economical solution to dividing work space and are more versatile than building permanent walls. Whether you want to separate production areas, create smaller work areas, contain dust and contaminants, reduce energy consumption, create thermal separation, sound abatement, or simply create a barrier for your employees' comfort and productivity, a DuraSpan curtain is an excellent solution. DuraSpan curtains allow you to maximize your available space by providing retractibility and mobility not available in permanent wall fixtures. They are easy to install and maintain.

Custom Designed for Your Application

Chase Doors offers superior design and engineering processes which enhance the functionality, durability and life of its products. All DuraSpan curtains are custom manufactured for your specific application. DuraSpan wall curtains are available as a single straight curtain, curved curtains, curtains with multiple sides, or modular enclosures. Units can be equipped with built-in strip curtains, or can incorporate door systems mounted to tube steel frames. Chase's team of in-house engineers and customer service professionals will work with you throughout the order process to design a system that meets your specific requirements. All DuraSpan wall systems are manufactured to the highest quality standards for maximum performance and durability.

Installation Quick and Easy

DuraSpan curtains can be installed in a fraction of the time it would take to create a framed wall, saving time and money! They can be installed easily to any ceiling, wall, floor, or suspended from the ceiling using a rod or chain. DuraSpan industrial curtains ship ready to install, simply hang the curtain on an existing mounting structure or on our track system. To install on our track system, just fasten the track, slide on the trolley wheels and hang the curtain—as easy 1, 2, 3.

Chase DuraSpan[™] Industrial Curtains

DuraSpan Insulated Curtains

The DuraSpan insulated curtain wall is the perfect solution for refrigerated areas, food processing facilities, walk-in coolers and freezers, distribution centers or any other area that requires a barrier for temperature control. DuraSpan insulated curtains can be easily moved, are customizable and are 1/3 the cost of a permanent wall.

- DuraSpan insulated curtains are constructed with an outer surface of 18 oz. vinyl coated polyester fabric material and an inner core of single or double ply double bubble insulation.
- The Flame retardant vinyl meets NFPA 701 requirements and the California Fire Marshal Standard*.
- The top of the curtain has a reinforced hem sewn with mildew resistant thread and stainless steel grommets available in 12", 18" or 24" increments.
- Each wall is made of 54" wide panels attached together with full-height Velcro. The full height Velcro allows the walls to easily be moved and reconfigured.

DuraSpan Industrial Curtains

The DuraSpan industrial curtain is your solution for manufacturing, warehousing, food processing, distribution centers, data centers, automotive or airport bays, gymnasiums, demolition, remodeling and other applications that require an economical, durable barrier. The no-fuss DuraSpan industrial curtain with optional track system can retract or expand within seconds, giving you the versatility needed to get the job done.

- DuraSpan industrial curtains are constructed with 18 oz. vinyl coated polyester fabric material in an array of colors.
- The Flame retardant vinyl meets NFPA 701 requirements and the California Fire Marshal Standard*.
- The top of the curtain has a reinforced sewn hem mildew resistant thread and stainless steel grommets available in 12", 18" or 24" increments.
- Every industrial curtain can be customized to suit your specific need. See the back cover for options and available colors.
